

## System Center Core Products

Microsoft®  
**System Center**  
Configuration Manager 2007 R2

### [System Center Configuration Manager R2](#)

System Center Configuration Manager\* comprehensively assesses, deploys, and updates servers, client computers, and devices—across physical, virtual, distributed, and mobile environments. Optimized for Windows and extensible, it is the best choice for gaining enhanced insight into and control over IT systems.

Microsoft®  
**System Center**  
Operations Manager 2007

### [System Center Operations Manager](#)

System Center Operations Manager\* is the end-to-end service-management product that is the best choice for Windows because it works seamlessly with Microsoft software and applications, helping organizations increase efficiency while enabling greater control of the IT environment.

Microsoft®  
**System Center**  
Data Protection Manager 2007

### [System Center Data Protection Manager](#)

System Center Data Protection Manager\* is the new standard for Windows backup and recovery, delivering continuous data protection for Microsoft application and file servers using seamlessly integrated disk and tape media. System Center Data Protection Manager enables rapid and reliable recovery through advanced technology for organizations of all sizes.

Microsoft®  
**System Center**  
Virtual Machine Manager 2008

### [System Center Virtual Machine Manager 2008](#)

Virtual Machine Manager (VMM) 2008 enables customers to configure and deploy new virtual machines and centrally manage physical and virtual infrastructure from one console. New to this version of VMM is multi-vendor virtualization platform support, Performance and Resource Optimization (PRO) and enhanced support of "high availability" host clusters, among other new features.

Microsoft®  
**System Center**  
Essentials 2007

### [System Center Essentials](#)

System Center Essentials is specifically designed for midsize businesses (up to 500 client computers and 30 servers). System Center Essentials provides a unified management product that enables IT pros in midsize organizations to proactively manage their IT environment with increased efficiency.
