

## Corporate Technical Trainer – St. Louis Based

*Do you love technology and find joy in helping others learn? Join a talented team of instructors at Centriq Training!*

**Description:** We are seeking an experienced Technical Trainer to deliver courses within our Corporate Training Division. This position will be based out of our St. Louis, MO, office. Our corporate students are adult learners in professional classroom environments. Class deliveries are open-enrollment/public or private dedicated courses for specific clients. Students may be in-classroom or virtual, thus trainer candidates should be experienced with delivering highly-interactive courses through in-person and web-based platforms.

The first priority for this Technical Trainer is delivering courses on the following topics and certifications:

- CompTIA A+
- CompTIA Network+
- CompTIA Security+
- ITIL Foundation
- Desktop / Business Applications

Depending upon the specific experience of the selected candidate, we will need the Technical Trainer to prep and specialize in one of the following areas:

- Cyber Security training
- Microsoft Authorized Infrastructure training (Windows Server, Windows Client, PowerShell, System Center, Office 365, Exchange, Azure, etc.)

### **Required Expertise:**

- Deep subject matter expertise and proven experience with hardware, network administration, security, IT infrastructure, and desktop support.
- Experience delivering technical training to adult learners in a professional environment
- At least two of the following CompTIA certifications: A+, Network+, Security+, CSA+

### **Preferred Education and Certifications:**

- Bachelor degree
- Industry Certifications Beyond CompTIA
  - Examples –MCSA/MCSE, CCNA, VCP, RHCE, CEH, ITIL Foundation, ITIL Practitioner
- Vendor Trainer Certification
  - Examples - CompTIA Certified Technical Trainer (CTT+), Microsoft Certified Trainer (MCT)

**Additional Requirements:**

- Highly professional and polished
- Adaptive and flexible
- Ability to outline and develop customized curriculum and supplements
- Excellent communication skills, verbal and written
- Excited to consistently learn new skills, tools, and technology
- Positive attitude, sense of humor and creativity
- Ability to work and make decisions with minimal supervision
- Individual contributor and team player
- Ability to travel for public deliveries from our Kansas City office and client site deliveries on an as-needed basis (approximately 25%)

**The Perks & Benefits:**

- Health
- Dental
- Vision
- Prescription Drug
- Flexible Spending Accounts
- Life Insurance
- 401(k)
- Dedicated prep weeks and work/life balance
- Company gatherings and social events

**About Us:**

Centriq Training has been Kansas City's leading technical training company for 25+ years. In April 2017, Centriq Training acquired St. Louis-based Premier Knowledge Solutions (PKS). The firms combined create the largest IT training company in the Midwest, offering in-person training from 29 instructors at 27 classrooms located in St. Louis, Kansas City and O'Fallon, IL, along with live, "virtual" online courses.

Centriq provides an extensive selection of authorized training from industry leaders like Cisco, CompTIA, IBM, ITIL, Microsoft and VMware. Clients are able to train in specialized areas such as cyber security, project management, system networking, big data/data science, web and mobile development.

Invest in yourself and apply to become part of our team of premier trainers in this challenging and rewarding career!

Email your resume and cover letter to [careers@centriq.com](mailto:careers@centriq.com) with "Corporate Trainer Application" in the subject line.
